AHS-126 Health Calculations

Course Number	AHS-126
Course Title	Health Calculations
Credit Hours	1
Prerequisites	Taking curriculum level
Course Description	This course is a study of the mathematical concept needed in health science studies
Course Objectives	Contribute to the establishment and maintenance of safe mathematical calculations Apply critical thinking skills and promote these reasoning skills in the healthcare environment when dealing with various individual, infants, and children health calculation and safe medication administration Student will be able to promote and provide sensitive care with the understanding of safe mathematical health calculations Student will apply professional behaviors learned in the class The student will use verbal and nonverbal communication skills to interact with various peers and faculty The student will progress in their skills and demonstrate the knowledge of health calculation and safely calculate medication administration
Course Developer	Dr. Heather Anderson, DNP, RN
Means of Instruction	Lecture, written assignments, reading assignments, audio visual, demonstrations
Required Textbook/Written Materials/Supplies	<i>See Booklist online for current book.</i>

Master Course Syllabus

Master Course Syllabus

General Education Core Competencies

General Education Core Competencies	Course Methodology, Content and/or Assessment
Communication: Students will be able to communicate effectively through reading, writing, speaking and listening. • Prepare written documents in a professional manner. • Develop oral communication skills to present information in a professional and appropriate manner. • Demonstrate appropriate listening skills in one-on-one and small and large group settings.	Participation in class discussions is recommended and encouraged. The student is required to read assignments from the course textbook The student is required to participate in discussions.

General Education Core Competencies	Course Methodology, Content and/or Assessment
Mathematical Reasoning: Students will apply those mathematical skills appropriate to their program of study. • Analyze and solve mathematical problems needed in the workplace, daily life and educational environment. • Interpret data using analytical methods.	The student needs to be able to understand basic mathematical equations. The student may apply rational problem solving when the healthcare field
Critical Thinking: Students will employ effective processes for resolving problems and making decisions. • Identify problems and potential causes. • Solve problems using basic research, analysis and interpretation. • Evaluate results of solutions and revise strategies as indicated by findings.	The student will identify different and apply rational problem solving within the scope of practice. The student will understand the learning objectives set forth within the course.

Master Course Syllabus

Technology Utilization: Students will apply knowledge of computers on a level compatible with job and/or educational demands. • Demonstrate a basic knowledge of computer applications including word processing, spreadsheets, databases, and presentation software. • Use basic operating system functions competently (e.g. store and retrieve data, load software). • Demonstrate communication and research skills through use of the internet.	Students will utilize computer skills within the course. Students will protect the safety and privacy of the individuals computerized and paperwork within the course. The student will comply with college regulations and rules.
---	---

General Education Core Competencies	Course Methodology, Content and/or Assessment
Interpersonal Skills: Students will deal effectively and appropriately with others. • Interact well with individuals and groups from diverse backgrounds and cultures. • Work with others in situational analysis, problem solving, and task accomplishment. • Demonstrate respect for the rights, work, and views of others.	Can work effectively with other students in completing assignments as a project team or individual Is able and willing to instruct less experienced students in completing work assignments. The student will follow FERPA regulations of the college Follow the WTC policies and procedures Demonstrates flexibility in assigned shared responsibilities. Interacts well with individuals from diverse backgrounds
Professionalism: Students will exhibit professionalism through observances of a code of ethics, a sense of responsibility, good habits, and a positive attitude. • Demonstrate personal and business integrity and ethics. • Recognize, manage, and cope with the transitions of change. • Utilize informational resources for lifelong learning.	The student will protect the safety and privacy of the individuals work. Be eager for a lifelong learning career. The student will respect privacy and dignity of the patient as well as peers and staff

Master Course Syllabus

College Policies

Policy Type	Policy Description
Attendance Policy	Attendance and participation are necessary for academic success. Williamsburg Technical College (WTC) expects students to attend all scheduled class meetings. WTC requires students to be present a minimum of 80% of all class lectures and laboratory sessions. Once a student has missed 20% of the course or two consecutive weeks, whichever occurs first, the faculty is obligated to withdraw students from the course. Individual programs may set higher required attendance and tardy standards, but must include these standards in their course syllabus and announce the requirements during the first two class meetings. Instructors will be given the flexibility to work with students in good standing who provide documentation to support a legitimate reason for an absence. It is the responsibility of the student to make up all missed class assignments within the time frame set by the instructor. Students may withdraw from a class at any time by completing a withdrawal form in the Student Services Office. A student can only receive a “WP” grade if withdrawal is completed in the Student Services Office prior to the last date to receive a “WP” grade published in the academic calendar. Students who fail to withdraw by the specified time will receive a letter grade for the course. For specific procedures related to this policy, refer to WTC Procedure D-23.1.
Policy Type	Policy Description
Policy for Students with Disabilities	The Student Affairs Division provides counseling and support services which help students with disabilities to pursue academic programs of their choice and participate fully in campus life. The VP for Student Affairs can arrange counseling, special parking, priority registration, and other reasonable services needed by students with disabilities. Students with disabilities are encouraged to contact the VP for Student Affairs to discuss needs and concerns as they arise.
Policy for Academic Misconduct	All forms of academic dishonesty including, but not limited to, cheating on tests, plagiarism, collusion, and falsification of information will call for discipline. See the Student Code & Grievance Procedure in the Williamsburg Technical College Catalog for details.

Master Course Syllabus

Grading Policy	The College operates on the semester hour system, and the following symbols are used in grading: A-- Excellent B -- Above Average C -- Average D -- Passing F -- Failure I -- Incomplete WF -- Withdrawal while failing WP -- Withdrawal while passing
Policy for Class Safety and Emergencies	Injuries must be reported to the VP for Student Affairs immediately. Insurance claim forms are available in the Student Affairs division. Please refer to the college catalogue for more information on how Williamsburg Technical College addresses safety and emergency issues. For additional information, contact Student Affairs at 843.355.4162. Students taking coursework at off-site locations are responsible for reading and adhering to all safety instructions and guidance at the off-site location. Health Services and First Aid Williamsburg Technical College is a commuter institution; therefore, infirmary facilities are not provided. Basic first aid for minor injuries is available, and first aid kits are located in various departments of the College. Major illness or injury will be treated by health professionals. The campus is located adjacent to Williamsburg Regional Hospital. Each student is covered by accident insurance at no additional cost. This group insurance covers the student while on campus and during college-sponsored group travel.
