NUR 217 Trends and Issues

Course Number	NUR 217
Course Title	Trends and Issues
Credit Hours	3
Prerequisites	≥ 79in NUR 101 Fundamentals, NUR 106Pharmacologic Basics in Nursing Practice, NUR 120 Basic Nursing Concepts, NUR 210 Complex Health Problems, NUR 214 Mental Health, NUR 220 Family Centered Nursing “C” or better in Gen-Ed Courses BIO-210 Anatomy and Physiology I, BIO-211 Anatomy and Physiology II, ENG 101- English Composition I, ENG-102 English Composition II, MAT-110 College Algebra or MAT-120 Probability and Statistics, BIO 225 Microbiology, PSY 201 General Psychology, SPC 2015 Public Speaking Co-requisites: NUR 221 Advanced Nursing Concepts , and ART 101 Art Appreciation or MUS 105 Music Appreciation
Course Description	This course is an exploration of health care trends and issues. Emphasis is placed on contemporary issues and management concepts as well as developing the skills of delegation, conflict management, and leadership. Legal and ethical issues are discussed with a focus on personal accountability and responsibility. Standards of practice and the significance of functioning according to state regulations and statutes are analyzed. Clinical experience provides the student the opportunity to apply theoretical concepts while functioning in a leadership role.
Course Objectives	Integrate principles of group process and teamwork into operation of the inter-professional healthcare team (Teamwork and Collaboration). Student will promote professional behaviors in the healthcare setting. Practice within ethical, legal, and regulatory standards for the associate degree nursing student. (Professionalism) Delegate tasks within the legal parameters of that entity’s scope and practice, ensuring safe, quality patient centered care (Patient Centered Care).

Master Course Syllabus

	Evaluate the effectiveness of quality improvement strategies using patient outcome data to improve health care services (Quality Improvement). Apply leadership skills and empowerment strategies when managing the care of patients, families, and groups (Leadership). Collaborate with members of the interprofessional health care team while acting as a patient advocate in the provision of safe, quality care for adult and older adult patients with health alterations (Safety). Defend opinions using evidence-based literature about selected contemporary issues and their effects on the profession of nursing, healthcare delivery system, and system-based practice (Evidenced Based Practice). Use verbal and nonverbal communication that promotes caring, therapeutic relationships with patients, families as well as professional relationships with members of health care team (Communication). Use healthcare information systems and patient care technology to manage patient care, support clinical judgements, mitigate errors, and communicate relevant patient information with members of the healthcare team (Informatics). Analyze personal career goals and additional education or certification needed to achieve these goals (Patient Education). Use organizational time management, priority –setting and decision making in the provision of the care of the patient with complex health alterations (Critical Thinking).
Course Developer	Dr. Heather Anderson, DNP RN
Means of Instruction	Lecture, discussions, demonstrations, reading assignments, written assignments, audio-visual material, and assigned journal readings, lab practices, return demonstrations in skills lab and simulation lab
Required Textbook/Written Materials/Supplies	<i>See Booklist online for current book.</i>

Master Course Syllabus

General Education Core Competencies

General Education Core Competencies	Course Methodology, Content and/or Assessment
Communication: Students will be able to communicate effectively through reading, writing, speaking and listening. • Prepare written documents in a professional manner. • Develop oral communication skills to present information in a professional and appropriate manner. • Demonstrate appropriate listening skills in one-on-one and small and large group settings.	The student is required to read assignments from the course textbook and outside sources. The student is required to submit several clinical written and oral reports. The student is required to participate in class discussion

General Education Core Competencies	Course Methodology, Content and/or Assessment
Mathematical Reasoning: Students will apply those mathematical skills appropriate to their program of study. • Analyze and solve mathematical problems needed in the workplace, daily life and educational environment. • Interpret data using analytical methods.	Basic mathematical and analytical skills are developed through defining drug calculation problems. The student will analyze alternatives and use formulas to solve problems
Critical Thinking: Students will employ effective processes for resolving problems and making decisions. • Identify problems and potential causes. • Solve problems using basic research, analysis and interpretation. • Evaluate results of solutions and revise strategies as indicated by findings.	The student will apply rational problem solving when implementing plan of care. The student will seek consultation when clinical problems fall outside current knowledge or scope of practice

Master Course Syllabus

Technology Utilization: Students will apply knowledge of computers on a level compatible with job and/or educational demands. • Demonstrate a basic knowledge of computer applications including word processing, spreadsheets, databases, and presentation software. • Use basic operating system functions competently (e.g. store and retrieve data, load software). • Demonstrate communication and research skills through use of the internet.	Students will protect the safety and privacy of the individual's computerized and paper health care records and information.
---	--

General Education Core Competencies	Course Methodology, Content and/or Assessment
Interpersonal Skills: Students will deal effectively and appropriately with others. • Interact well with individuals and groups from diverse backgrounds and cultures. • Work with others in situational analysis, problem solving, and task accomplishment. • Demonstrate respect for the rights, work, and views of others.	Can work effectively with other students in completing assignments as a project team. Is able and willing to instruct less experienced students in completing work assignments. The student will collect data for individuals using standard protocol or tool: implement plan of care; report/record findings and assist in planning and evaluating care. The student will contribute to the development of nursing care plans. The student will express a caring and empathetic connection with individuals in order to provide compassionate, sensitive and appropriate care Demonstrates flexibility in assigned shared responsibilities. Interacts well with individuals from diverse backgrounds and cultures while refraining from discriminatory practices. (ex. Gender)

Master Course Syllabus

Professionalism: Students will exhibit professionalism through observances of a code of ethics, a sense of responsibility, good habits, and a positive attitude. • Demonstrate personal and business integrity and ethics. • Recognize, manage, and cope with the transitions of change. • Utilize informational resources for lifelong learning.	The student will adhere to Nursing Code of Ethics. The student will respect privacy and dignity of the patient. The student will comply with the Nurse Practice Act. Be eager for a lifelong learning career.

Master Course Syllabus

College Policies

Policy Type	Policy Description
Attendance Policy	Attendance and participation are necessary for academic success. Williamsburg Technical College (WTC) expects students to attend all scheduled class meetings. WTC requires students to be present a minimum of 80% of all class lectures and laboratory sessions. Once a student has missed 20% of the course or two consecutive weeks, whichever occurs first, the faculty is obligated to withdraw students from the course. Individual programs may set higher required attendance and tardy standards, but must include these standards in their course syllabus and announce the requirements during the first two class meetings. Instructors will be given the flexibility to work with students in good standing who provide documentation to support a legitimate reason for an absence. It is the responsibility of the student to make up all missed class assignments within the time frame set by the instructor. Students may withdraw from a class at any time by completing a withdrawal form in the Student Services Office. A student can only receive a “WP” grade if withdrawal is completed in the Student Services Office prior to the last date to receive a “WP” grade published in the academic calendar. Students who fail to withdraw by the specified time will receive a letter grade for the course. For specific procedures related to this policy, refer to WTC Procedure D-23.1.
Policy Type	Policy Description
Policy for Students with Disabilities	The Student Affairs Division provides counseling and support services which help students with disabilities to pursue academic programs of their choice and participate fully in campus life. The VP for Student Affairs can arrange counseling, special parking, priority registration, and other reasonable services needed by students with disabilities. Students with disabilities are encouraged to contact the VP for Student Affairs to discuss needs and concerns as they arise.
Policy for Academic Misconduct	All forms of academic dishonesty including, but not limited to, cheating on tests, plagiarism, collusion, and falsification of information will call for discipline. See the Student Code & Grievance Procedure in the Williamsburg Technical College Catalog for details.

Master Course Syllabus

Grading Policy	The College operates on the semester hour system, and the following symbols are used in grading: A-- Excellent B -- Above Average C -- Average D -- Passing F -- Failure I -- Incomplete WF -- Withdrawal while failing WP -- Withdrawal while passing
Policy for Class Safety and Emergencies	Injuries must be reported to the VP for Student Affairs immediately. Insurance claim forms are available in the Student Affairs division. Please refer to the college catalogue for more information on how Williamsburg Technical College addresses safety and emergency issues. For additional information, contact Student Affairs at 843.355.4162. Students taking coursework at off-site locations are responsible for reading and adhering to all safety instructions and guidance at the off-site location. Health Services and First Aid Williamsburg Technical College is a commuter institution; therefore, infirmary facilities are not provided. Basic first aid for minor injuries is available, and first aid kits are located in various departments of the College. Major illness or injury will be treated by health professionals. The campus is located adjacent to Williamsburg Regional Hospital. Each student is covered by accident insurance at no additional cost. This group insurance covers the student while on campus and during college-sponsored group travel.
