- I. Every course must have a syllabus that conforms to the Master Course Syllabus template. The purpose of the syllabus is to provide a framework for the course. It is essential to update a syllabus periodically to keep it current, appropriate for the learner, and relevant to the course. All courses offered by Williamsburg Technical College, as a member of the South Carolina Technical College System, follow System-wide and prescribed course numbers, course titles, descriptions, and credit value. All courses offered by Williamsburg Technical College will have a standard and uniform course syllabus that conforms to the information in the SC Technical College System Catalog of Approved Courses.
  
- II. The syllabus is a two-part document provided to all students in a course section during the first week of class. The first part of the syllabus is termed the “Master Syllabus,” and this part of the total syllabus is not subject to modification by individual faculty members. The Master Syllabus document is created by the full-time faculty of the college or by program coordinators in consultation and coordination with part-time faculty hired by the college to teach and contribute to the curriculum development of the college in a particular discipline or program. The consultation and collaboration with the part-time faculty will occur annually, as a minimum, and may be accomplished during department meetings following the faculty orientation in August of each year. Additional meetings may be scheduled as necessary by department heads or program coordinators.
  
- III. The second part of the syllabus is termed the “Syllabus Addendum,” and this portion of the syllabus is subject to modification by individual faculty members. This portion of the syllabus will include information specific to a single section and may be tailored to address unique requirements in addition to the requirements of the master syllabus such as weekly schedules of assignments, grading rubrics for assignments, or other classroom behavior policies specific to the individual instructor.
  - A. **Master Syllabus:** The master syllabus must contain the following components/information and may not be modified except with Department Head and Vice President for Academic and Student Affairs approval. Information denoted with an asterisk(\*) is determined by the South Carolina Technical College System and may not be modified except by System Office approval:

- D. If section policies exceed the minimum college policies, they must be clearly identified in the syllabus (i.e., attendance policy more stringent than college policy.)
- V. Instructors are expected to distribute the Master Course Syllabus and Syllabus Addendum to students the first day of class. The syllabus informs students about the instructor’s policies, procedures, and expectations as well as assigns students’ readings, projects, exams, etc. Clarity, thoroughness, and accuracy are critical elements for at least two reasons: the syllabus is scrutinized during the faculty evaluation process; and the potential exists for students to file a grievance based on their perceived breach of agreement if instructors deviate from what has been stated in writing.
- VI. Syllabi are evaluated by the Department Head and the AVP for Academic Affairs each semester. All faculty will submit one copy of the syllabus (Master Syllabus and Syllabus Addendum) to the Academic Affairs Office within the first week of class. The Academic Affairs Office will distribute the syllabus to the appropriate Department Head who will initiate a Syllabus Review Form, sign, and submit to the AVP for Academic Affairs for approval. If errors are found, the syllabus will be forwarded to affected instructors for correction and, depending on the errors, corrections should be made and returned to the Department Head within one week. After required edits are made, the Department Head will submit the corrected syllabus to the Academic Affairs Office. A current copy of each course’s syllabus must be submitted to the Academic Affairs Office where they are kept on file and available for review.
