The purpose of this policy is to establish guidelines governing the creation and ownership of intellectual property by all employees and students of the college.

EMPLOYEES

It is the policy of Williamsburg Technical College to encourage the creation of intellectual property by all employees and, in limited circumstances and by prior written agreement only, provide for a portion of the net proceeds from the commercial exploitation of specifically designated intellectual property to be awarded to the employee who created the work on the institution’s behalf. The intent of this policy is to protect the college’s resources and ensure that they are used consistently with the college’s mission.

The college recognizes that intellectual stimulation is essential to any learning environment and that parameters must be established regarding the rights and responsibilities of those involved. Accordingly, the college’s policy on ownership of intellectual property is that, except as specifically and expressly exempted herein or in the procedures developed under this policy, copyrights, patents, and all other forms of intellectual property developed by any college employee within the scope of his or her employment or using college resources is the exclusive property of the college. As “work for hire,” no transfer of ownership rights in copyrights, patents, or other forms of intellectual property from the institution to the employee shall occur unless the college expressly and specifically grants the ownership rights, in whole or in part, to the employee or other party or parties by means of a written and signed agreement.

Intellectual property developed by a non-employee third party consultant pursuant to the terms of a written and signed contract will generally be considered “work for hire,” and to be owned by the college unless otherwise provided in the consulting contract.
